Subject: Re: HERS Efficiency Committee Workshop Documents

Dear Ms. Lam:

Thank you keeping me in the loop. Unfortunately, I will not be able to attend the August 14th Workshop. I am, however, sending along some brief comments from my prospective as a real estate broker and educator – particularly in issues related to risk management and consumer protection.

Here in California an individual does not have to be licensed to perform a home inspection. There is no requirement that the home inspector be a licensed contractor. I think this is an excellent opportunity to mandate specific licenses, including passing mandatory State exams, for the different types of energy inspectors that are discussed in the Draft Proposed Regulation and Draft Technical Manual. If you would like to discuss this further, you are welcome to call me.

Sincerely,

Lois Kadosh
