0 10 20 30 40 Kilometers

*Derived from data developed by the National Renewable Energy Laboratory

NOTE: Data have been screened to include only land with less than 5 percent slope, greater than 1 square kilometer total area, and not excluded from development. Federally Designated Wilderness; Wilderness Study Areas; Areas of Critical Environmental Concern; and habitats for desert tortoise (DWMAs), Mohave ground squirrel, flat-tailed horned lizard, and Coachella Valley fringe-toed lizard are excluded.
