Attention Michael D.Mill P.E. Senior Manger
Re Canyon Power Plant Facility (ID No 153992)
Dear Sir,
Thank you for your letter dated March 11th.

Following current disclosures and the future exposure to B & C's employees and others with regard to the above, B & C are in process of gathering further information for interested parties which will reveal a fuller possible impact .

Such areas of concern and objection are not restricted to Premium Increases in Insurance, Workers Compensation, Health and Safety ,, Pollution , Property devaluation or even Hypoxia . In order to help us further in our evaluation :.

1-Please provided the maximum levels of Oxygen depletion, CO2 and other Pollution to be experienced during the worst case (Summer) seasonal wind free conditions within say a 200 yard radius.

2-In order to satisfy our Legal Division that your office is not derelict of duty in the Public interest please provide copies of Photovoltaic , recommendations and none polluting alternates to the present which are under consideration.

3.Please advise B & C to what degree AQMD are prepared to compensate local business's and property owners for a further depreciation in property values which this announcement has already created in the event that AQMD continue to be supportive of this project.

3082 E. Miraloma Ave., Anaheim, CA 92806 USA - Phone: (714) 632-3303 - Fax: (714) 632-5632
Web Pages: www.bcawnings.com - Email Address: bcawningsinc@yahoo.com

4- It is reasonably probable that projected Pollution and Oxygen deficiency may or may not fall within government agencies recommendation or guidelines .Please provided proof of how your agency propose to indemnify business owners and employees such as ours in the event that the statistics upon which you base your determination at some date future prove erroneous. For example there are no known procedures to immediately increase Oxygen levels once depleted This latter request is essential to satisfy the discontent resulting from what you describe as a thorough review and the fact that your department restricted its findings only to compliance with guidelines .

Yours faithfully

Christopher W Walker
Senior Vice President
