COLUSA GENERATING STATION (06-AFC-9C) AMENDMENT PETITION #2

Dear Mr. Maring:

In accordance with the provisions of Title 20, California Code of Regulations, section 1769(a), California Energy Commission (Energy Commission) staff reviewed your petition dated January 21, 2009. This request was to modify the Colusa Generating Station (CGS) project description of the switchyard and transmission line interconnection route. Staff determined that the petition met the criteria of section 1769(a)(2), and mailed the enclosed "Notice of Receipt" to the Energy Commission's post-certification project mailing list on March 25, 2009.

The Energy Commission did not receive any public comments regarding this requested project change within the 14-day public review period. Therefore, your requested modification to the CGS switchyard and transmission line interconnection route is approved.

If you have any questions, please call me at (916) 654-4842, or e-mail me at **CMDavis@energy.state.ca.us**.

Sincerely,

Chris Davis
