APPLICATION FOR CERTIFICATION FOR THE EASTSHORE ENERGY CENTER IN HAYWARD BY TIERRA ENERGY	DOCKET NO. 06-AFC-6 (AFC Accepted 11/8/06)

UPDATED EXHIBIT LIST AND WITNESS LIST

December 7, 2007

Attached to this filing are an updated exhibit list and witness list. All of the exhibits are going by currier to the California Energy Commission's ("Commission") Docket Office, the Hearing Officer (2 sets) and each of the other parties. Due to the volume of our exhibits we have provided the exhibits to the parties as electronic files on disks. We did not include the air quality modeling files in Exhibit 11. Since most people are not interested in this level of detail and because the files are extremely large, we have not included these files on the disks. If anyone would like the air quality modeling files, please contact me, and we will get them to you electronically.

Since we are just receiving testimony now, we will provide a list of the witnesses we would like to cross-examine next week.
