Alan Solomon
Compliance Project Manager
California Energy Commission
1516 Ninth Street, MS-2000
Sacramento, CA 95814

January 16, 2012

Dear Mr. Solomom

We are "Concerned Neighbors of HECA", a diverse group of land owners composed of farmers, dairy, a recycling company, and an equestrian facility, all of whose property is located near the proposed Hydrogen Energy California Power Plant (HECA). We want to alert you that we have grave concerns about the proposed project near us in Buttonwillow. We are waiting to see their revised application expected this spring, 2012, in order to study and comment about our concerns. We will be watching as the state processes their application. Please keep us advised as to filings, events, and their progress. We intend to be actively involved.

Respectfully Chris Romanini
