Public Comment regarding the proposed Quail Brush Generation Project

I would like to make the following written comment. I understand that my comments will be docketed and may be posted on the Energy Commission's website and be available to the public.

I am against the construction of this power plant.

- It would cause toxic air emissions and acid rain + dirty water.
- it would hurt the specie who live in Mission Trails Regl Park with its NOISE and Smoke.
- It would ruin the peace of the park and neighborhood with its NOISE
- It would cause more FIRE danger.
