BEFORE THE ENERGY RESOURCES CONSERVATION AND DEVELOPMENT COMMISSION OF THE STATE OF CALIFORNIA

Application for Certification for the Willow Pass Generating Station Project	Docket No. 08-AFC-6

FOURTEENTH STATUS REPORT OF GENON WILLOW PASS, LLC

In accordance with the Committee Scheduling Order dated December 31, 2008, the applicant in this proceeding, GenOn Willow Pass, LLC ("GenOn Willow Pass"), submits its fourteenth status report in this proceeding. GenOn Willow Pass is seeking certification for the Willow Pass Generating Station, a 550 megawatt, natural gas-fired electricity generating facility to be located in Pittsburg, California.[1]

There have been no new developments since the last status report was filed. As reported previously, GenOn Willow Pass has worked with Pacific Gas and Electric Company ("PG&E"), the previous owner of the project site, to prepare a work plan for conducting additional soil gas sampling at the project site. On behalf of PG&E, AMEC Geomatrix prepared the *Work Plan for Focused Site Investigation and Focused Heath Risk Assessment,* which was submitted to Commission staff on June 14, 2010. The work plan addresses Staff Data Requests 73 through 75 and provides for collection of soil vapor and groundwater samples and preparation of a focused Health Risk Assessment that includes a Human Health Risk Assessment and a Screening Level Ecological Risk Assessment. GenOn Willow Pass is awaiting Staff's approval of the work plan. Once approval is received, GenOn Willow Pass will ask PG&E to undertake the sampling outlined in the approved work plan.

Respectfully submitted,
