SUBJECT: **COSUMNES POWER PLANT (01-AFC-19C)**
**APPROVAL OF MODIFICATION TO UPGRADE THE ZERO LIQUID DISCHARGE SYSTEM**

Dear Ms. Jimenez-Price:

In accordance with the provisions of Title 20, California Code of Regulations, section 1769(a), California Energy Commission (Energy Commission) staff reviewed your petition dated February 10, 2009, requesting to upgrade the Zero Liquid Discharge System and install a OnePass filtration system at the Cosumnes Power Plant (CPP) facility. Staff determined that the petition met the criteria of section 1769(a)(2), and mailed the enclosed "Notice of Insignificant Project Change" to the Energy Commission's post-certification project mailing list on April 1, 2009.

The Energy Commission did not receive any public comments regarding this requested project change within the 14-day public review period as specified in section 1769(a)(2). Therefore, your requested modification to upgrade the Zero Liquid Discharge System and install a OnePass filtration system at CPP is approved.

If you have any questions, please call me at (916) 654-4048, or e-mail me at Ajgarcia@energy.state.ca.us.
