APPLICATION COMPLETENESS DETERMINATION

Based on information submitted in application for Determination of Compliance / Authority to Construct / Permit to Operate a power generating plant consisting of two (2) natural gas fired combustion turbines and one steam turbine (Application No. 984569 for the South Bay Replacement Project) the San Diego County Air Pollution Control District (District) has determined that the application is complete pursuant to Rule 18 of the District 's Rules and Regulations.

Despite this completeness determination, the District has the authority, and is likely, to require amplification and/or clarification of all information submitted. Prompt submittal of such information will assist the District in providing expeditious action.

This completeness determination commences a 180-day period available to the District to take action on the application for Authority to Construct. Although 180 days are available, the District makes every effort to take action as early as possible. This determination is based on all information submitted by the applicant and assumes no substantive changes in this information that would require an amended application.

If you have any questions regarding these comments, please contact the undersigned at (858) 586-2747.

Sincerely,

Camqui Nguyen
