Dale Rundquist
Compliance Project Manager
California Energy Commission
Siting, Transmission, & Environmental Protection (STEP) Division
1516 Ninth Street, MS-2000
Sacramento, CA 95814-5512

Dear Mr. Rundquist:

This letter is an addendum to a request for an amendment to the Conditions of Certification for SEGS III – VII Kramer Junction (87-AFC-1) located at 41100 Highway 395, Boron, CA 93516 sent June 19, 2012.

The original request included a listing of the foundation and containment structure size based on preliminary information that was provided to the facility. Since that time the facility has received the final dimensions from the equipment manufacturer. The foundation and containment structure was listed as approximately 45' by 45'. The dimensions of the structure will be 26' by 21' with a three foot high wall.

Should you have any questions or require additional information please contact me at (760) 762-5562 extension 395, or Glen King at (760) 762-5562 extension 440.

Sincerely,

Robert Fimbres
