California Energy Commission
DOCKETED
08-AFC-8A
TN # 66503
AUG 06 2012

To DOE 7-19-12

I've lived in Tupman 50 years
My children, grandchildren, &
greatgrandchildren live here, too
I am afraid of the gases,
chemicals, amonia, and toxics
associated with HECA.
They well be lethal for
my family and for everyone
~~here~~ living around it. Our
lives are at risk if there is
an accident.

Please don't permit HECA
