RE: CALCTP Lighting Control Acceptance Test Technician Certification Provider Application

Dear Mr. Commins:

I am writing this letter to fully support CALCTP's application for formal approval. I am an I.B.E.W. wireman certified by the State of California. I am also a Certified Acceptance Technician having completed the prerequisite fifty (50) hours of Advance Lighting Controls Technical Program prior to the required sixteen (16) hour Acceptance Technician Certification Program.

My experience and knowledge as a certified electrician is an important part of each inspection that I conduct and enhances the training I have received from the CALCTP programs. I feel very strongly that my skills and training as an electrician are essential to the successful enforcement of the 2013 Title 24 energy code.

Sincerely,
O'BRYANT ELECTRIC, INC.

Phillip Stayrook
Acceptance Technician #TC-A813594
