Re: San Francisco Electric Reliability Project, CEC Docket No 04-AFC-1

Dear Bill:

The purpose of this letter is to confirm that the City of San Francisco requests that the San Francisco Electric Reliability Project, CEC Docket No. 04-AFC-1, (SFERP) schedule be put on hold while the City evaluates an alternative site identified in the AFC. The City has also contacted the Bay Area Air Quality Management District (BAAQMD) and requested that the Preliminary Determination of Compliance (PDOC) schedule also be put on temporary hold. The BAAQMD has agreed to this request and will not issue the PDOC at this time. The City understands that this request to place the project schedule on hold will result in a day-to-day slip in the licensing process as mandated by the Warren-Alquist Act.

The City is currently meeting with the community and property owners to identify the steps to obtain site control. We expect to have additional information to share with the California Energy Commission staff by mid-November.

Please do not hesitate to contact me if I can answer any questions on this matter.

Sincerely yours,

Karen S. Kubick
