Attorneys for San Gabriel Power Generation, LLC

BEFORE THE ENERGY RESOURCES CONSERVATION AND DEVELOPMENT COMMISSION OF THE STATE OF CALIFORNIA

Application for Certification for the San Gabriel Generating Station	Docket No. 07-AFC-2

SAN GABRIEL POWER GENERATION, LLC
SUSPENSION STATUS REPORT NUMBER 6

In accordance with the Committee Order Suspending Proceeding dated July 16, 2010, the applicant in this proceeding, San Gabriel Power Generation, LLC ("San Gabriel"), submits its suspension status report number 6. San Gabriel is seeking certification for the San Gabriel Generating Station, a 696 megawatt, natural gas-fired electricity generating facility to be located in Rancho Cucamonga, California within the jurisdiction of the South Coast Air Quality Management District ("SCAQMD").[1]

San Gabriel requested the current suspension of this proceeding due to permitting difficulties associated with the unavailability within the SCAQMD of certain emission reduction credits, such as PM_{10} credits. San Gabriel continues to monitor the situation and to evaluate potential solutions to this issue, which affects the entire SCAQMD region. San Gabriel attended the joint workshop that was held on February 15, 2011 by the Energy Commission's 2011 Integrated Energy Policy Report Committee and the Air Resources Board to discuss the challenges of licensing fossil-fueled power plants in Southern California and will be submitting written comments by March 3, 2011. San Gabriel intends to participate in any future proceedings related to this issue or the preparation of the report required by California Assembly Bill 1318.

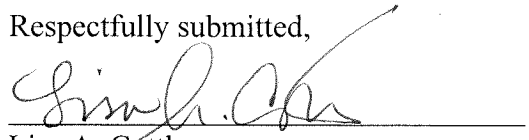
San Gabriel remains committed to developing the San Gabriel Generating Station. The San Gabriel Generating Station would provide capacity and energy that could be used to serve reliability needs in Southern California, while offering benefits associated with the use of an existing power plant site, including by avoiding the need to construct significant new electric transmission or natural gas pipeline lateral facilities. San Gabriel will inform the Committee of any new developments or information that may be relevant to this proceeding.

---

[1] As reported in previous suspension status reports, San Gabriel's ultimate parent entity is now GenOn Energy, Inc., which was created through a merger between Mirant Corporation and RRI Energy, Inc. The merger was completed on December 3, 2010.

March 1, 2011

Respectfully submitted,



Lisa A. Cottle
