DATE 12/03/10
RECD. 12/03/10

Subject: Filing of Notice of Decision in compliance with Public Resources Code Section 21080.5 and Title 20, California Code of Regulations, Section 1768

Project Title: CPV SENTINEL ENERGY PROJECT

Energy Commission Docket Number: 07-AFC-3

Energy Commission Contact Person: John Kessler Telephone: (916) 654-4679

Project Location: The proposed CPV Sentinel Energy Project site is located on 37 acres of land situated within unincorporated Riverside County, California. The project site is located approximately 1.3 miles east of State Route (SR) 62, 1.7 miles north of Interstate 10 (I-10), and 1.3 miles west of Indian Avenue. Powerline Roads North and South run along the south side of the property. Access to the site would be available from Dillon Road north onto the proposed access road to the project site. Access to Dillon Road is from the Dillon Road exit off SR 62 and from the Indian Avenue exit off I-10.

County: Riverside

Project Description: The project consists of eight natural gas-fired, GE Energy LMS100 combustion turbine generators (CTGs) operating in simple-cycle mode. Each exhaust stack will be 13.5 feet in diameter and 90 feet tall. The project will produce up to 850 MW.

On December 1, 2010, the California Energy Commission approved the above-described project pursuant to a regulatory program certified by the California Secretary of Resources under Section 21080.5 of the California Public Resources Code. The Energy Commission adopted the Presiding Member's Proposed Decision (PMPD) and Errata to the PMPD. The Commission will subsequently compile a single document combining the Errata and the PMPD for the convenience of the parties and the public; however, the effective date of the Decision remains December 1, 2010.

The Commission docket files containing the PMPD, Errata, the compiled final Commission Decision (when it is completed) and other information regarding the project are available to the public at: California Energy Commission, 1516 9th Street, Sacramento, California, 95814. Those documents and other information regarding the project are also available on the Commission's web site located at http://www.energy.ca.gov/sitingcases/sentinel/index.html.
