

California Alternative & Renewable Fuel & Vehicle Technology Program Funding Opportunities for Alternative Fuels & Technologies

AB118 provides funding over the next eight years to:

- Increase alternative fuels use in California.
- Fund research, development, and demonstration projects.
- Stimulate investment in alternative fuel and vehicle technology.
- Build and improve California's alternative fuel infrastructure.

To be added to our e-mail information list, please send your contact information to alternativefuels@energy.state.ca.us. More information is available at www.energy.ca.gov/ab118 California Alternative Fuels Plan at www.energy.ca.gov/ab1007
