

AB 118 Investment Plan – Hydrogen Technology for Transportation Workshop

Leslie Barody

California Energy Commission
Hearing Room A

September 29, 2009

Workshop Objective

The California Energy Commission is seeking information and insights that will justify the \$100 million funding allocation in the 2010-2011 Alternative and Renewable Fuel and Vehicle Technology Investment Program, and accordingly advance state policies pertaining to climate change, petroleum reduction, and biofuels use.

Workshop Agenda

- 9:00 Introduction and Agenda Review
- 9:30 Policy and Regulatory Presentations
- 10:00 Light Duty Vehicle Panel
- 11:45 Lunch
- 1:00 Heavy Duty Vehicle and Off-Road
Applications Panel
- 2:30 Fuel Production and Distribution Panel
- 4:00 Public Comment
- 4:30 Closing Remarks
- 4:45 Adjourn

Investment Plan Workshop Schedule

Workshop	Location	Date
Electric Drive	Diamond Bar SCAQMD	September 9
Biofuels	CEC Hearing Room A	September 14-15
Natural Gas/Propane	Long Beach City Hall	September 18
Hydrogen	CEC Hearing Room A	September 29
Electric Drive Integration	California Public Utilities Commission, San Francisco	October 12

Next Steps

- October 12: Hold final workshop on electric drive infrastructure.
- Early November: Incorporate information from the workshops into a draft of the Investment Plan.
- Mid-November: Hold the first meeting of the Advisory Committee to review and discuss the draft Investment Plan.
- Early-December: Host public workshops on the Investment Plan, and incorporate revisions as appropriate.
- January: Second Advisory Committee meeting.
