The Economic Outlook in California Workshop

The California Energy Commission's Electricity Supply Analysis Division and Fuels and Transportation Division will jointly conduct a workshop to solicit comments on the changing California economy and future economic outlook as part of the *2011 Integrated Energy Policy Report (2011 IEPR)*. Commissioners from the Energy Commission and California Public Utilities Commission may attend and participate. The workshop will be held:

Wednesday, January 19, 2011
Beginning at 10 a.m.
CALIFORNIA ENERGY COMMISSION
1516 Ninth Street
First Floor, Hearing Room A
Sacramento, California
(Wheelchair Accessible)

Because of possible high attendance, if you plan to attend please contact Kate Sullivan at ksulliva@energy.state.ca.us for further information.

Remote Attendance and Availability of Documents

Internet Webcast - Presentations and audio from the meeting will be broadcast via our WebEx web meeting service. For details on how to participate via WebEx, please see the "Remote Attendance" section toward the end of this notice.

Documents and presentations for this meeting will be available on-line at:

http://www.energy.ca.gov/2011_energy_policy/documents/

Purpose

This workshop will convene economists and business representatives to discuss their perspective of the changing California economy. The information will be used during the *2011 IEPR* process to better understand the economy's effect on energy use and environmental planning in California.

Background

The Energy Commission is holding a workshop to gather information about California's economic outlook and how business and industry will be impacted by the uncertain economic climate. During the workshop a moderator will present questions about the impact of the current state of the economy and the effects on California's future. The workshop is composed of three panels—one focusing on the general economy including land-use issues, shifting California residential centers, immigration/emigration, and aging population. The second panel will focus on California jobs. The third panel will focus on the economy's impact on business and industry in California. Time will be reserved at the end of each panel discussion for questions from the public. This workshop will provide an opportunity for energy demand forecasters and other Commission staff, as well as utility forecasters, to obtain further insight about possible economic outcomes in California.
