The *2011 Integrated Energy Policy Report*, adopted at the February 8, 2012 Business Meeting, was prepared in response to Senate Bill 1389 (Bowen, Chapter 568, Statutes of 2002) requirement. The report contains an assessment of major energy trends and issues facing California's electricity, natural gas, and transportation fuel sectors. It also provides policy recommendations to conserve resources; protect the environment; ensure reliable, secure, and diverse energy supplies; enhance California's economy; and protect public health and safety [Public Resources Code Section 25301(a)]. This incorporates the proposed changes that were also approved at the business meeting.
