

# Manufacturing Summary

Larry Rillera  
Emerging Fuels and Technologies Office  
Fuels and Transportation Division

AB 118 Advisory Committee Meeting  
Sacramento, California  
September 19, 2012

## PON-09-605: Manufacturing Plants: Electric Vehicles, Alternative Fuel Vehicles, Vehicle Components and Batteries

|                       | Total | Technology |     |    | Total Value  | Total Expended |
|-----------------------|-------|------------|-----|----|--------------|----------------|
|                       |       | EV         | CNG | H2 |              |                |
| Applications Received | 23    | 21         | 1   | 1  | \$83,441,089 | -              |
| Match Funding         | -     | -          | -   | -  | \$24,888,094 | -              |
| Applications Funded   | 11    | 11         | 0   | 0  | \$24,888,000 | \$8,164,126    |

## PON-11-604: Advanced Vehicle Technology Manufacturing

|                       | Total | Technology |     |    | Total Value   | Total Expended |
|-----------------------|-------|------------|-----|----|---------------|----------------|
|                       |       | EV         | CNG | H2 |               |                |
| Applications Received | 15    | 12         | 2   | 3  | \$53,201,444  | -              |
| Match Funding         | -     | -          | -   | -  | \$130,262,105 | -              |
| Applications Funded   | 4     | 4          | 0   | 0  | \$19,835,173  | \$0            |
