Background

Assembly Bill 118 (Núñez, Chapter 750, Statutes of 2007), created the Alternative and Renewable Fuel and Vehicle Technology Program. The statute, subsequently amended by AB 109 (Núñez, Chapter 313, Statutes of 2008), authorizes the Energy Commission to develop and deploy alternative and renewable fuels and advanced transportation technologies to help attain the state's climate change policies. The Energy Commission has an annual Program budget of approximately \$100 million to support projects that:

- Develop and improve alternative and renewable low-carbon fuels.
- Optimize alternative and renewable fuels for existing and developing engine technologies.
- Produce alternative and renewable low-carbon fuels in California.
- Decrease, on a full fuel cycle basis, the overall impact and carbon footprint of alternative and renewable fuels and increase sustainability.
- Expand fuel infrastructure, fueling stations, and equipment.
- Improve light-, medium-, and heavy-duty vehicle technologies.
- Retrofit medium- and heavy-duty on-road and non-road vehicle fleets.
- Expand infrastructure connected with existing fleets, public transit, and transportation corridors.
- Establish workforce training programs, conduct public education and promotion, and create technology centers.

Assembly Bill 1314 (Wieckowski, Chapter 487, Statutes of 2011) requires the Energy Commission to annually update an investment plan that communicates the Energy Commission's strategic vision and determines the funding priorities and opportunities for the upcoming fiscal year, providing an analytical rationale for proposed expenditures. The investment plan update also highlights and explains the rationale for any year-to-year changes to the Energy Commission's ARFVT Program strategy and funding priorities. Projects funded by the Energy Commission under the Program must be consistent with the priorities established in the plan.

The most recently adopted investment plan (the *2012-2013 Investment Plan Update*) was adopted at an Energy Commission Business Meeting on May 9, 2012. This document is available online at www.energy.ca.gov/2012publications/CEC-600-2012-001/CEC-600-2012-001-CMF.pdf.

The Energy Commission is also required to convene and consult with an Advisory Committee to help develop each investment plan update. The Advisory Committee is composed of representatives of fuel and vehicle technology consortia, labor organizations, environmental organizations, community-based justice and public health organizations, recreational boaters, consumer advocates, academic institutions, workforce training groups, and private industry. The Advisory Committee also includes representatives from various state agencies: the

Natural Resources Agency; the Business, Transportation and Housing Agency; the Labor and Workforce Development Agency; and the California Environmental Protection Agency.

Public Comment

The Lead Commissioner for Transportation will accept oral comments during the meeting. Comments may be limited to three minutes per speaker. Any comments will become part of the public record in this proceeding.

Written comments should be submitted to the Dockets Unit by 4:00 p.m. on March 14, 2013. Written comments will also be accepted at the meeting; however, the Energy Commission may not have time to review them before the conclusion of the meeting. For additional information, see Standing Order re: Proceedings and Confidentiality Procedural Requirements for Filing, Service, and Docketing Documents with the Energy Commission, available at: www.energy.ca.gov/commission/chief_counsel/docket.html.

Additionally, written comments may be posted to the Energy Commission's website for the proceeding. Please note that your written and oral comments, attachments, and associated contact information (e.g. your address, phone, email, etc.) become part of the viewable public record. This information may become available via Google, Yahoo, and any other search engines.

The Energy Commission encourages comments by e-mail. Please include your name and any organization name.
