

Combined Heat and Power: Small CHP Panel

Bryan Neff
Electricity Analysis Office
Electricity Supply Analysis Division

Lead Commissioner Workshop on Combined Heat and Power in California
Hearing Room A
February 16th, 2012

Small (≤ 20 MW) Focus

- Different Drivers, Different Barriers
- Identifying what works and what doesn't through first hand experiences
- Installing CHP:
 - Sam Ruark, Sonoma County
 - John Hake, EBMUD Energy
- CHP Manufacturers:
 - Bill Martini, Tecogen
 - Joe Allen, Solar Turbines

Guiding Questions

- What are the most significant factors that contribute to the decision by a public or private developer to invest in CHP?
- What economic and/or regulatory challenges lead to project delays or failure?
- How can the state support the development of an active market for small CHP development?
