

Silvio J. Ferrari, California Building Industry Association

Silvio currently serves as the Vice President of Legislative Affairs at the California Building Industry Association. He was hired by the association in 2009 to serve as a Staff Engineer in which he assisted the technical department with all issues related to residential building codes, including energy efficiency, renewable energy, green building, fire and life safety, indoor air quality and disabled accessibility standards. Currently, he works with technical and legislative department to oversee all aspects of CBIA's legislative agenda.

Silvio received a bachelor's degree in Civil and Structural Engineering from the University of California at Davis. He also completed the UC Davis Extension Green Building and Sustainable Design Certificate program and became LEED Accredited in 2008.
