Subject: Docket No. 13-IEP-1 -- Comments on Petition for Societal Cost-Benefit Evaluation of California's Net Energy Metering Program

Categories: Ready to Docket

California Energy Commission

DOCKETED

13-IEP-1

TN # 71466

JUN 28 2013

Jun 27, 2013

Chair California Energy Commission Robert Weisenmiller

Dear Chair California Energy Commission Weisenmiller,

I support the petition submitted on June 5, 2013 by the Sierra Club, American Lung Association in California and other parties requesting that the California Energy Commission (CEC) perform a societal cost-benefit evaluation of California's Net Energy Metering Program.

Rooftop solar plays a critical role in reducing the need for dirty natural gas peaker plants and is an important way for individuals to help fight climate change.

It is obvious what has happened here...corporation profits over citizens..

I respectfully request that you grant the petition and perform the societal cost-benefit study requested by the petitioners.

Thank you for your consideration.

Sincerely,

Inger Lindholm
