| CERTIFICATE OF COMPLIANCE | | NRCC-SRA-01-E |
| Solar Ready Areas | | (Page 1 of 3) |
| Project Name: | Date Prepared: | |

| | |
|---|---|
| A. General Information | |
| Project Address: | |
| Building Type: | |
| <input type="checkbox"/> Hotel/Motel building with ten stories or fewer | <input type="checkbox"/> High-rise multi-family building with ten stories or fewer |
| <input type="checkbox"/> Other nonresidential building with three stories or fewer | |
| Solar-ready requirements do not apply to hotel/motel buildings and high-rise multifamily building with more than ten stories or other nonresidential buildings with more than three stories. | |
| Type of Construction: | |
| <input type="checkbox"/> New Construction | <input type="checkbox"/> Addition that increases roof area by more than 2,000 ft ² |
| Solar-ready requirements do not apply to alterations or additions that increase the roof area by 2,000 ft² or less. | |

| | |
|--|--|
| B. Solar-Ready | |
| (Choose Path 01, 02, 03, 04 or 05 E from below) | |
| <input type="checkbox"/> 1 Allocated Solar Zone | |
| NRCC-SRA-02-E Minimum Solar Zone Area Worksheet is required to be submitted | |
| Minimum Solar Zone Area (ft²) | |
| This is quantity [G] from NRCC-SRA-02-E Minimum Solar Zone Area Worksheet | |
| Proposed Solar Zone Area (ft²) | |
| This is quantity [S] from NRCC-SRA-02-E Minimum Solar Zone Area Worksheet | |
| The construction documents will indicate a location for inverters and metering equipment and a pathway for routing of conduit from the solar zone to the point of interconnection with the electrical service. The construction documents will indicate a pathway for routing of plumbing from the solar zone to the water heating system. | |
| A copy of the construction documents or a comparable document indicating information about the solar zone and interconnection pathways will be provided to the occupant. | |
| If the designer certifies that all above requirements have been met and the Proposed Solar Zone Area meets or exceeds the Minimum Solar Zone Area, the building complies, otherwise it does not comply. <input type="checkbox"/> does not comply <input type="checkbox"/> complies | |
| <input type="checkbox"/> 2 Permanently Installed Solar Photovoltaic (PV) System | |
| Total Roof Area (ft²)* [A] | Minimum Nameplate DC Power Rating (watts) [B] = A x 1 watt/ft ² |
| * New construction: report total roof area; Additions: report newly added roof area | |
| Will the proposed building have a permanently installed solar electric system that meets or exceeds the Minimum Nameplate DC Power Rating? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, a NRCI-SPV-01-E Certificate of Installation: Solar Photovoltaic System documenting the installed system must be submitted as a condition of final approval. | |
| Please check box to right if answered yes to all questions in this section. <input type="checkbox"/> EXEMPT | |
| <input type="checkbox"/> 3 Permanently Installed Solar Water Heating System | |
| Will the building have a permanently installed solar water heating system? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, a NRCI-STH-01-E Certificate of Installation: Solar Water Heating System documenting the installed system must be submitted as condition of final approval. | |
| Is the annual solar savings fraction equal to or greater than 0.2 in climate zones 1 through 9 or 0.35 in climate zones 10 through 16? <input type="checkbox"/> Yes <input type="checkbox"/> No | |
| Annual Solar Savings Fraction | How was Annual Solar Savings Fraction Calculated? |
| Please check box to right if answered yes to all questions in this section. <input type="checkbox"/> EXEMPT | |

| RESPONSIBLE PERSON'S DECLARATION STATEMENT | |
| I certify the following under penalty of perjury, under the laws of the State of California: | |
| <ol style="list-style-type: none"> 1. The information provided on this Certificate of Compliance is true and correct. 2. I am eligible under Division 3 of the Business and Professions Code to accept responsibility for the building design or system design identified on this Certificate of Compliance (responsible designer). 3. The energy features and performance specifications, materials, components, and manufactured devices for the building design or system design identified on this Certificate of Compliance conform to the requirements of Title 24, Part 1 and Part 6 of the California Code of Regulations. 4. The building design features or system design features identified on this Certificate of Compliance are consistent with the information provided on other applicable compliance documents, worksheets, calculations, plans and specifications submitted to the enforcement agency for approval with this building permit application. 5. I will ensure that a completed signed copy of this Certificate of Compliance shall be made available with the building permit(s) issued for the building, and made available to the enforcement agency for all applicable inspections. I understand that a completed signed copy of this Certificate of Compliance is required to be included with the documentation the builder provides to the building owner at occupancy. | |

NRCC-SRA-01-E User Instructions**A. General Information**

- 01 Enter the project address.
- 02 Building Type: Select the building type from the available options
- 03 Type of Construction: Select the type of construction from the available options.

B. Solar Ready

An applicant must show compliance with the Solar Ready Requirements through one of the following five options.

1 Allocated Solar Zone – A copy of the NRCC-SRA-02-E Minimum Solar Zone Area Worksheet must be submitted as a condition of final approval.

- 01 Enter the Minimum Solar Zone Area (ft²) calculated in the NRCC-SRA-02-E Minimum Solar Zone Area Worksheet.
- 02 Enter the Proposed Solar Zone Area (ft²) calculated in the NRCC-SRA-02-E Minimum Solar Zone Area Worksheet.
- 03 If the Proposed Solar Zone Area is greater than or equal to the Minimum Solar Zone Area, and all requirements listed in Table A have been met, then the building complies.

2 Permanently Installed Solar Photovoltaic (PV) System

- 01 Enter the total roof area (ft²).
- 02 Calculate the Minimum Nameplate DC Power Rating of the PV system (Watts) by multiplying the total roof area (ft²) by 1 Watt/ft².
- 03 If the proposed PV system has a nameplate DC power rating that is greater than or equal to the Minimum DC Power Rating of the PV system, then building is exempt from the solar ready requirements. A NRCI-SPV-01-E Certificate of Installation: Solar Photovoltaic System that documents the PV system installation must be completed and submitted as a condition of final approval.

3 Permanently Installed Solar Water Heating System

- 01 Enter the Annual Solar Savings Fraction (%).
- 02 Enter how the Annual Solar Savings Fraction value was determined.
- 03 The building exempt from the Solar Ready requirements if the solar savings fraction is equal to or greater than 0.2 in climate zones 1 through 9, or 0.35 in climate zones 10 through 16. A NRCI-STH-01-E Certificate of Installation: Solar Water Heating System that documents the system installation must be completed and submitted as a condition of final approval.

4 Smart Thermostats and Alternative Efficiency Measure

- 01 Please indicate whether the building is a high rise multifamily building with ten or fewer stories.
- 02 Please indicate whether all thermostats in dwelling units are Occupant Controlled Smart Thermostats.
- 03 Please indicate whether an alternative efficiency measure has been installed.
- 04 If all of the responses in 01 through 03 are yes, then the building is exempt from the solar ready requirements.

5 Roof is designed for Vehicle Traffic or Parking or for Heliport

- 01 The applicant must indicate whether the roof has been designed to be used for vehicular traffic or a heliport.
- 02 If the building has been designed for vehicle traffic or for a heliport, please provide a building plan reference number.
- 03 The building is exempt from the solar ready requirements if the answer in 01 is yes and a building plan reference number is provided.
