**Notice of Second Addendum to the
LOCALIZED HEALTH IMPACTS REPORT
for
Selected Projects Awarded Funding Through the
Alternative and Renewable Fuel and Vehicle Technology
Program Under Solicitation PON-09-608
Publication CEC-600-2011-002-AD2**

The Energy Commission is required under California Code of Regulations, Title 13, Chapter 8.1, Section 2343(c)(6), to consider the localized health impacts and environmental justice when approving projects for funding.

The Localized Health Impacts Report for Selected Hydrogen Fuel Infrastructure Projects Awarded Funding Through the Alternative and Renewable Fuel and Vehicle Technology Program under Solicitation PON-09-608 was posted February 17, 2011, and the 30-day public comment period ended March 18, 2011. An addendum to this report was posted on May 6, 2011, and the 30-day public comment period ended June 6, 2011.

The Energy Commission has published a second addendum to the original Localized Health Impacts Report that analyzes a new location of a project proposed for funding under the Program. Air Products and Chemicals, Inc. plans to install a hydrogen fueling station at a gasoline station located at 1819 Cloverfield Blvd., Santa Monica, CA 90404. This hydrogen fueling station will replace the one planned for 1402 Santa Monica Blvd., Santa Monica, CA 90404. The addendum was publicly available on May 20, 2013.

The addendum to the report includes a description of the project, criteria emissions data for the fuels associated with the project, demographic data for the area where the project will be located, and an analysis of the impacts of this project in communities with the most significant exposure to air contaminants or localized air contaminants.

This report is available for free from the Energy Commission's website at www.energy.ca.gov/2011publications/CEC-600-2011-002/CEC-600-2011-002-AD2.PDF.
