**Notice of Fourth Addendum to the
LOCALIZED HEALTH IMPACTS REPORT
for
Selected Projects Awarded Funding Through the
Alternative and Renewable Fuel and Vehicle Technology
Program Under Solicitation PON-13-607
Publication CEC-600-2014-007-AD4**

The Energy Commission is required under California Code of Regulations, Title 13, Chapter 8.1, Section 2343(c)(6), to consider the localized health impacts and environmental justice when approving projects for funding.

The *Localized Health Impacts Report for Selected Hydrogen Refueling Infrastructure Projects Awarded Funding Through the Alternative and Renewable Fuel and Vehicle Technology Program Under Solicitation PON-13-607* was posted June 19, 2014, and the 30-day public comment period ended July 19, 2014. Three addendums to this report were posted on October 2, 2014, December 31, 2014 and February 4, 2015.

The Energy Commission has published a fourth addendum to the original Localized Health Impacts Report that analyzes a new location and community impacts of a project proposed for funding under the Program. Linde LLC's project "Oakland Airport Hydrogen Fueling Station" has changed location of the project from 1019 Langley Street, Oakland, CA 94621 to 1172 45th Street, Emeryville, CA 94608. The addendum was publicly available on January 22, 2016.

The addendum to the report includes staff application of the Environmental Justice Screening Method (EJSM) to identify projects located in areas with social vulnerability indicators and the greatest exposure to air pollution and associated health risks.

This report is available on the Energy Commission's website at <http://www.energy.ca.gov/altfuels/documents/index.html>.
