

# Memorandum

To: Melissa Jones  
Executive Director

Date : August 11, 2010

Telephone: CALNET (654 ) 4628

From : California Energy Commission - PAT PEREZ, Deputy Director,  
1516 Ninth Street  
Sacramento CA 95814-5512  
FUELS AND TRANSPORTATION

Subject: RECOMMENDATION TO APPROVE A \$5,000,000.00 LOAN WITH THE AMERICAN RECOVERY AND REINVESTMENT ACT (ARRA) FUNDS TO SOLAR POWER, Inc. THROUGH THE CLEAN ENERGY BUSINESS FINANCING PROGRAM (CEBFP) TO BE CONSIDERED AT THE SEPTEMBER 8, 2010 BUSINESS MEETING

## Summary of Item

Solar Power, Inc. submitted an application through the CEBFP. Staff recommends funding Solar Power, Inc. \$5,000,000.00 for the purchase of fixed-asset manufacturing equipment and eligible installation costs at their manufacturing facility in McClellan, CA.

## Justification for Action Requested

Staff reviewed 44 applications for funding through the CEBFP. The four program areas evaluated included job creation/retention, energy saved, leveraged financing, and an economic adjustment for manufacturing job loss. Applications were then submitted to the financial development corporations (FDCs) through the Business, Transportation, and Housing Agency (BTH) where they underwent rigorous business credit analysis. CEBFP awardee's that scored high in these categories were deemed eligible for funding depending on CEBFP loan capacity available.

Solar Power Inc.'s application was ranked number 3 with a final score of 78. The project will have a production capacity of 50 megawatts (MW) annually by January 2011. The project will create and/or retain an estimated 698 full-time equivalent jobs. The estimated annual production of solar cells at the facility using CEBFP funding will offset 25,076 tons of carbon dioxide (CO2) per year.

The total project cost is \$24,917,000.00, of which Solar Power Inc. will be providing \$19,917,000.00 in leveraged financing. Upon completion of installation, the loan will be repaid in 84 monthly payments.

Staff recommends approval of CEBFP funding in the amount of \$5,000,000.00.

Project Manager

Larry Rillera, Special Projects Office

Oral Presentation

Staff will be prepared to discuss this recommendation and to respond to questions at the Business Meeting.

Business Meeting Participants

Larry Rillera, Special Projects Office  
Marcia Smith, Special Projects Office  
Jacob Orenberg, Special Projects Office  
Michael Doughton, Legal

Commission Action Requested

Approve the CEBFP loan and authorize the Executive Director to execute the loan documents.

---

PAT PEREZ, Deputy Director  
FUELS AND TRANSPORTATION DIVISION

**Pros:**

- Will create an estimated 698 full-time equivalent jobs, costing \$7,163 of federal funds per job, enabling California and the United States to meet the goals of the American Recovery and Reinvestment Act.
- Will grow in-state clean energy manufacturing products that would be used in Energy Commission programs for energy efficiency and renewable energy.
- Annual production will produce an estimated 72,684,058 kWh per year of renewable energy, promoting the Energy Commission's Loading Order.
- Annual production will offset carbon dioxide emissions by an estimated 25,076 tons per year, enabling California to meet the goals of AB 32.

**Cons:**

- None

**What Happens Next:** Staff will conduct kick-off meeting at Solar Power Inc.'s manufacturing facility. Elements will include site verification, review ARRA reporting procedures, and assess field, business, and financing conditions.
