

Western Governors' Association Contract

Exhibit A

Scope of Work

1. The California Highway Patrol will provide officer training, operational assistance, and shipment inspections (Commercial Vehicle Safety Alliance Level VI inspections) for U.S. Department of Energy transuranic waste shipments originating in traveling through California. At their discretion, the CHP may provide shipment escorts.
2. California agencies (California Energy Commission, California Highway Patrol and/or California Emergency Management Agency) will attend the Western Governors' Association Waste Isolation Pilot Plant (WIPP) semi-annual meetings and other regional nuclear waste transportation meetings including the National Transportation Stakeholders Forum.
3. The California Energy Commission staff will attend in-state meetings related to federal nuclear waste transport shipments in California.
