Project Title: Energy Demand Optimization Program for L.A. Trade Tech's F Building

Project Location - Specific: 915 Wilshire Blvd, Suite 810

Project Location - City: Los Angeles, CA Project Location - County: Los Angeles

Description of Project:

The amended project will provide a more suitable location and will not change the purpose, goals, objectives, or functionality of the originally proposed RESCO project. The project will create a showcase RESCO environment at LATTC. The goals of this Agreement are to integrate the various technologies, which will provide 76 percent of the peak energy use for the RESCO Complex. The Agreement will:

- Create a complete, verifiable and functional RESCO.
• Demonstrate how the technologies interact to realize the vast potential of RESCOs.
• Demonstrate the most advanced renewable and storage technologies available.
• Demonstrate some of the most advanced conceptual thinking in the sustainable field.

The objectives of this Agreement are to create a RESCO that will demonstrate the viability of the concept and technologies. In addition, this project will:

- Create a model classroom laboratory for a renewable and sustainability curriculum.
• Allow for the training of staff and faculty in how to maximize such a RESCO system and how to teach others to understand and use it.
• Enhance student learning by creating a healthy, energy efficient learning environment.
• Augment multiple instructional and certificate programs in the rapidly expanding "green" curriculum that LATTC is developing.
• Develop and train workers for the emerging "green" workforce.
• Provide an example of what other colleges and universities nationwide can do to create their own RESCO.
• Provide ample opportunities for outreach and media dissemination for the RESCO concept and Energy Commission contribution to the development of such a valuable and beneficial process.

Name of Public Agency Approving Project: California Energy Commission

Name of Person or Agency Carrying Out Project: Los Angeles Community College District

Exempt Status: (check one)

- [] Ministerial (Sec. 21080(b)(1); 15268);
[] Declared Emergency (Sec. 21080(b)(3); 15269(a));
[] Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
[X] Categorical Exemption. State type and section number 14 CCR 15329
[] Statutory Exemptions. State code number.
[] Common Sense Exemption. 15061(b)(3)

Reasons why project is exempt:

Class 29 - Installation of certain cogeneration equipment of less than 50 megawatts capacity at existing facilities.

Lead Agency

Contact Person: Pablo Gutierrez **Area code/Telephone/Ext:** 654-4663

If filed by applicant:

1. Attach certified document of exemption finding.
2. Has a Notice of Exemption been filed by the public agency approving the project? Yes No
