

CPV SENTINEL ENERGY PROJECT
Docket No. 07-AFC-3

Consideration and possible adoption of the Committee's Presiding Member's Proposed Decision on the CPV SENTINEL ENERGY PROJECT, (Docket No. 07-AFC-3), and Errata. The Committee issued its Presiding Member's Proposed Decision (PMPD) on October 5, 2010.

CPV Sentinel, LLC, (Sentinel), is a simple-cycle (peaking) power plant facility located within unincorporated Riverside County, adjacent to the Palm Springs northern city limits. The Sentinel project is a proposed nominally rated 850 megawatt (MW) electrical generating facility.

The PMPD contains the Committee's rationale in determining that the proposed project will, as mitigated, comply with all applicable laws, ordinances, regulations, and standards (LORS).
