Proposed Business Meeting Date: September 12, 2012

AGENDA ITEM SUBJECT AND DESCRIPTION – This is the wording that will appear on the agenda. Please note the following:

(Expenditure items must include the funding source.)

Consideration and possible adoption of the Committee's Presiding Member's Proposed Decision on the Pio Pico Energy Center (Docket No. 11-AFC-01), and possible Errata. The Committee issued its Presiding Member's Proposed Decision (PMPD) on August 6, 2012.

The Pio Pico Energy Center is a nominally rated 300 megawatt (MW) peaking and load following power plant using three General Electric LMS100 natural gas-fired combustion turbine generators (CTGs). The project site is adjacent to the existing Otay Mesa Generating Project (a natural gas-fired power plant). The PPEC site is comprised of a 10-acre parcel of disturbed and development-prepared land within an industrial area. The site is located in the southeast quadrant of the Alta Road and Calzada de la Fuente intersection, in an unincorporated area of San Diego County known as Otay Mesa.

The PMPD contains the Committee's rationale in determining that the proposed project will, as mitigated, have no significant impacts on the environment and will comply with all applicable laws, ordinances, regulations, and standards (LORS).
