REPORT OF CONVERSATION Page 1 of 1

**System Assessment and Facilities
 Siting Division Compliance Unit**

FILE: 97-AFC-2C

PROJECT TITLE: Sutter Power Project

<input checked="" type="checkbox"/> Telephone		<input type="checkbox"/> Meeting Location:	
NAME:	Beverly E. Bastian	DATE:	7/16/2013
TIME:		TIME:	12:15 pm
WITH:	Roy Stevenson, 3155 Oswald Road, Yuba City, 530-673-4898		
SUBJECT:	SEC change of ownership petition		

COMMENTS:

Mr. Stevenson called because he had received the Notice of Receipt of petition (and letter) for the change of ownership and change of name. He wanted to know if the plant was being sold. He expressed the hope that different ownership could mean more consideration of local needs and concerns, for example, that the plant would reserve some power for local use to prevent brown-outs in Sutter and Yuba Counties.

He lives near the plant—about 1.5 miles away—and opposed the construction of the plant when it was proposed. He complained about how noisy it is when it is operating.

Staff stated that the ownership transfer appeared to be for Calpine’s own internal business purposes, and no outside parties were involved.

Staff asked Mr. Stevenson if he was interested in expressing his concerns at the Business Meeting (8/14) at which staff would be presenting its recommendations for approval of the petition. He said he would decide when the time came.
