### 2013 Building Energy Efficiency Standards

Dear Mr. Yasny,

I worked at San Diego Gas & Electric (SDG&E) on energy efficiency incentive programs for large commercial/industrial customers until I retired in 2012 after 35 years of service. I'm an avid supporter of energy efficiency and the positive impact it makes.

The California Energy Commission has achieved many impressive accomplishments for the people of California. Your assistance is needed help postpone for at least six months the implementation of the new Title 24 Lighting Standards scheduled to go into effect on January 1st, 2014. A postponement is needed because the lighting retrofit industry needs more time to adjust to these changes and to avoid an adverse impact on the industry and California's economy.

I urge you to recommend a postponement of the implementation of Title 24 standards to the Commissioners when they vote on this issue on December 11th. Thank you for your service to California.

Sincerely,

Jerry Humphrey
