**NOTICE**

On April 1, 2015, Governor Edmund Brown Jr. issued Executive Order B-29-15 regarding the California drought situation. Directive 25 states:

The Energy Commission shall expedite the processing of all applications or petitions for amendments to power plant certifications issued by the Energy Commission for the purpose of securing alternate water supply necessary for continued power plant operations. Title 20, section 1769 of the California Code of Regulations is hereby waived for any such petition, and the Energy Commission is authorized to create and implement an alternative process to consider such petitions. This process may delegate amendment approval authority, as appropriate, to the Energy Commission Executive Director. The Energy Commission shall give timely notice to all relevant local, regional, and state agencies of any petition subject to this directive, and shall post on its website any such petition.

**Therefore**, the Energy Commission will consider an order delegating approval authority for petitions for amendment for the purpose of securing alternate water supply to the Executive Director at the May 13, 2015 Business Meeting.

If you wish to receive notice of the Business Meeting, please go the Energy Commission website under the Business Meeting tab and sign up for the list serve. You will automatically receive notice of the availability of agendas and backup documents.

If you have questions about this matter, please contact Jeffery Ogata, Assistant Chief Counsel, at [Jeffery.ogata@energy.ca.gov](mailto:Jeffery.ogata@energy.ca.gov), or by telephone at (916) 653-1151.
