#### DUTIES/RESPONSIBILITIES:

- Serve as team member responsible for portions of the development, adoption, and implementation of federal appliance efficiency standards, particularly in areas related to existing building energy efficiency, including plug-load efficiency, space heating and cooling, water heating, and lighting. Prepare presentations and analysis for both formal and informal federal regulatory negotiations and consensus-building groups, public meetings on federal appliance standards, and technical advocacy group calls and discussions on federal appliance standards. Prepare draft comment letters to the U.S. Department of Energy and the U.S. Environmental Protection Agency related to the improvement or development of federal appliance efficiency standards. Track and analyze federal appliance efficiency rulemakings and determine impact on state efficiency programs.
- As part of a team, provide technical input for portions of the iterative development, adoption, and implementation of the Appliance Efficiency Regulations, in particular the rapidly developing fields of consumer electronics and lighting technologies. Perform analysis and provide technical advice to policymakers on new and revised statewide appliance regulations critical for achieving the goals of the Clean Energy and Pollution Reduction Act of 2015 (SB 350), the Lighting Efficiency & Toxics Reduction Act (AB 1109), the Global Warming Solutions Act (AB 32), and the California Long Term Energy Efficiency Strategic Plan. Serve as team member on visible/controversial issues that will include direct contact with representatives of the California Public Utilities Commission, the U.S. Department of Energy, California's investor-owned utilities, and major industry trade associations such as the Consumer Electronics Association, the National Electrical Manufacturers Association, and the American Lighting Association.
- Prepare responses to program-related questions and requests made to the Energy Commission by stakeholders in energy efficiency policy, programs and technologies. Provide
