Range C: \$4,154 - \$5,146

LOCATION: Advanced Fuel Production Office
Fuels and Transportation Division
Sacramento, CA

FINAL FILING DATE: Until Filled

Are you interested in a career that makes a positive impact on California and the world? Would you like to be part of a talented and passionate team committed to developing innovative strategies and recommending public policy solutions that reduce greenhouse gas emissions, promote energy efficiency and reduce our dependence on petroleum? Are you prepared for an exciting challenge? If so, the California Energy Commission, a special funded agency, is seeking exceptional people to build upon California's transportation energy and energy efficiency successes, and shaping our energy future.

ASSOCIATE ENERGY SPECIALIST (TED) - DUTIES/RESPONSIBILITIES:

The Advanced Fuel Production Office's primary responsibility is the implementation of the Energy Commission's Alternative and Renewable Fuel and Vehicle Technology Program (ARFVTP) which receives approximately \$100 million per year to develop and deploy innovative technologies that will transform California's fuel and vehicle types to help attain the state's alternative fuel use and petroleum reduction goals in a manner consistent with climate change policies. The emphasis of this program is to deploy alternative and renewable fuels in the marketplace, without adopting any one preferred fuel or technology, and in doing so decrease, on a life-cycle basis, greenhouse gas emissions, air and water pollutants, reduce or avoid multimedia environmental impacts, and maintain the sustainability of the state's natural resources.

Under the general supervision of the Energy Resources Specialist II (Supervisory), the Associate Energy Specialist will perform a variety of technical and analytical tasks related to increasing the use of alternative and renewable fuels and innovative technologies that transform California's fuel and vehicle types to help attain the state's climate change policies. The incumbent will have responsibility for individual projects, transportation energy analysis, outreach development activities, and agreement management activities associated with the ARFVTP program in the Advanced Fuel Production Office.

ENERGY ANALYST – DUTIES AND RESPONSIBILITIES:

A duty statement is available upon request.

JOB OPPORTUNITY BULLETIN

DESIRABLE EXPERIENCE/QUALIFICATIONS: The successful applicant should have:

- Excellent analytical and report writing skills including proper grammar and punctuation rules, and the ability to reason logically and creatively while utilizing a variety of analytical techniques.
- Excellent communication skills including the ability to follow instructions and communicate ideas and thoughts effectively with a large diverse technical staff.
- Excellent interpersonal skills, including a proven ability to work in a team atmosphere under pressure effectively, as well as independently and at own initiative.
- Knowledge of research methods and techniques and the ability to prepare research and statistical reports.
