Attachment to Form 801
NGA Energy Innovation Summit
October 2017

Section 2: Describe the entity's business activity or its nature and interests.

The National Governors Association is a bipartisan organization of the nation's governors that promotes visionary state leadership, shares best practices, and speaks with a collective voice on national policy. The *Energy Innovation Summit* is part of NGA Chair Nevada Governor Brian Sandoval's Ahead of the Curve initiative that, in part, focuses on the energy and transportation sectors as two leading areas of innovation.

Section 3.2: Specific description of the payment and its agency purpose and use.

The *Energy Innovation Summit* provides a valuable opportunity for Mr. Coldwell, as a California representative, to participate in a variety of energy related discussions with leaders from other states. The discussions will focus on several relevant energy topics for California, including smart communication systems, distributed energy resources, microgrids, and transportation electrification. It's important that California has an opportunity to learn about innovative ideas and solutions that other states are currently considering and implementing to advance clean energy policies and markets.
