Attachment to Form 801 – CNEE Workshop – June 2017

Section 2: Describe the entity's business activity or its nature and interests.

The Center for the New Energy Economy was founded in 2011 as a department of Colorado State University. The Center works directly with governors, legislators, regulators, companies, and stakeholders by providing technical and strategic assistance to help decision makers create policies that facilitate America's transition to a clean energy economy.

Section 3.2: Specific description of the payment and its agency purpose and use.

Janea A. Scott, a Commissioner at the California Energy Commission (CEC), will participate at the Center for the New Energy Economy's (CNEE) *Repowering the Western Economy* workshop in Denver, Colorado. For the past few years, CNEE has been facilitating a 13-state dialogue on western clean energy issues in response to the Clean Power Plan (CPP). CNEE's *Repowering the Western Economy* workshop provides a valuable opportunity for California energy leaders to provide California's perspective on western energy planning issues. The Chair of the Energy Commission requested Commissioner Scott to attend on his behalf to provide California's perspective on important issues such as trends, challenges, and opportunities to the west's changing generation mix, electrifying the transportation sector, integrated increased levels of renewable energy into the western interconnect, planning for new infrastructure and resource adequacy, and identifying west-wide energy challenges. California needs a strong and present voice during these meetings, thus it is critical that Commissioner Scott is able to participate.
