**REVISED NOTICE OF PROPOSED AWARD (NOPA)****Electricity Sector Vulnerability Studies and Adaptation Options to Promote Resilience in a Changing Climate****GFO-15-303****August 5, 2015****August 20, 2015**

On March 16, 2015, the California Energy Commission (Energy Commission) released a competitive solicitation to fund applied research and development projects that reduce the environmental and public health impacts of electricity generation and make the electricity system less vulnerable to climate impacts. The grant solicitation announced that there is up to \$2.1 million in Electric Program Investment Charge (EPIC) funding available for the agreements resulting from this solicitation, in the following groups, and that the Energy Commission, at its sole discretion, reserves the right to increase or reduce the amount of funds available. The groups listed in the solicitation are:

- Group 1: Potential Impacts and Adaptation Options for the Electricity System from Sea Level Rise
- Group 2: Wildfires, Climate Change, and Impacts to Transmission and Distribution Lines
- Group 3: Development of Innovative Strategies to Foster a More Adaptive, Resilient Energy System under Present and Future Climate Conditions
- Group 4: Visualizing Climate-Related Risks to the Electricity System Using Cal-Adapt
- Group 5: Developing Enhanced Socioeconomic and Land-Use Scenarios

The Energy Commission received 13 proposals by the due date of June 5, 2015. Each proposal was screened, reviewed, evaluated and scored using the criteria in the solicitation. Twelve proposals passed the Stage One Application Screening.

The attached table, "Notice of Proposed Awards," identifies each applicant selected and recommended for funding by Energy Commission staff and includes the recommended funding amount and score. The total amount recommended is ~~\$1,899,200~~ **\$1,899,929**.

**The amount recommended for the proposed award to ICF Incorporated, LLC (Group 1) was corrected from \$499,200 to \$499,929.**

Funding of proposed projects resulting from this solicitation is contingent upon the approval of these projects at a publicly noticed Energy Commission Business Meeting and execution of a grant agreement. If the Energy Commission is unable to timely negotiate and execute a funding agreement with an Applicant, the Energy Commission, at its sole discretion, reserves the right to cancel or otherwise modify the pending award, and award the funds to another applicant.

In addition, the Energy Commission reserves the right to: 1) add to, remove, or shift funding between the different groups if there are insufficient passing proposals in one group and 2) negotiate with successful applicants to modify the project scope, schedule, and/or level of funding.

This notice is being mailed to all parties who submitted an application to this solicitation and is also posted on the Energy Commission's website at:  
[www.energy.ca.gov/contracts/](http://www.energy.ca.gov/contracts/).

For information, please contact Gordon Kashiwagi at (916) 654-5131 or at [Gordon.Kashiwagi@energy.ca.gov](mailto:Gordon.Kashiwagi@energy.ca.gov).
