**REVISED NOTICE OF PROPOSED AWARDS****Alternative and Renewable Fuel and Vehicle Technology Program
Grant Solicitation PON-13-603
Alternative Fuel Readiness Plans****January 14, 2014**

On August 12, 2013, the California Energy Commission (Energy Commission) released a Grant Solicitation and Application Package entitled "Alternative Fuel Readiness Plans" under the Alternative and Renewable Fuel and Vehicle Technology Program (ARFVTP). This first-come, first-served grant solicitation was an offer to fund projects that develop Alternative Fuel Readiness Plans that provide strategies for the deployment of alternative fuel infrastructure and encourage the adoption of alternative fuel vehicles.

The attached table, "Notice of Proposed Awards", identifies each applicant selected and recommended for funding by Energy Commission staff and includes the amount of recommended funding and score. This notice is being mailed to all parties who submitted an application to this solicitation and is also posted on the Energy Commission's website at: <http://www.energy.ca.gov/contracts/index.html>.

Funding of proposed projects resulting from this solicitation is contingent upon the approval of these projects at a publicly noticed Energy Commission Business Meeting and execution of a grant agreement. If the Energy Commission is unable to timely negotiate and execute a funding agreement with an Applicant, the Energy Commission, at its sole discretion, reserves the right to cancel the pending award.

Applicants who did not pass can correct their applications and resubmit them for reconsideration if funds are available. Resubmitted applications will be processed as a new application on a first-come, first-served basis.

Questions should be directed to: Sandra Cushman
Contracts, Grants and Loans Officer
