**REVISED NOTICE OF PROPOSED AWARD (NOPA)****DEMONSTRATING SECURE, RELIABLE MICROGRIDS
AND GRID-LINKED ELECTRIC VEHICLES
TO BUILD RESILIENT, LOW-CARBON FACILITIES AND COMMUNITIES
PON-14-301
September 1, 2015**

On July 3rd, 2014, the California Energy Commission (Energy Commission) released a competitive solicitation to fund Technology Demonstration and Deployment (TD&D) projects that demonstrate the reliable integration of energy efficient demand-side resources, distributed clean energy generation, and smart grid components to enable energy-smart community development. \$26.5 million in Electric Program Investment Charge (EPIC) funding was available to fund agreements. As the Energy Commission reserves the right to increase or reduce the amount of funds available, the Energy Commission added \$3,141,646 to this solicitation for a total funding amount of \$29,641,646 for three project groups:

- Group 1: Demonstration of Low Carbon-Based Microgrids for Critical Facilities
- Group 2: Demonstration of High-Penetration, Renewable-Based Microgrids
- Group 3: Demonstration of Advanced Smart and Bidirectional Vehicle Charging

The Energy Commission received forty proposals by the due date of November 17th, 2014. Each proposal was screened, reviewed, evaluated, and scored using the criteria in the solicitation. Thirty-two proposals passed the Stage One Application Screening.

The attached "Revised Notice of Proposed Awards" identifies each applicant selected including additional applicants recommended for funding by Energy Commission staff and includes the recommended funding amount. The total amount recommended is \$29,641,646.

Funding of proposed projects resulting from this solicitation is contingent upon the approval of these projects at a publicly noticed Energy Commission Business Meeting and execution of a grant agreement. If the Energy Commission is unable to timely negotiate and execute a funding agreement with an Applicant, the Energy Commission, at its sole discretion, reserves the right to cancel or otherwise modify the pending award, and award the funds to another applicant.

In addition, the Energy Commission reserves the right to: 1) add to, remove, or shift funding between the different groups and 2) negotiate with successful applicants to modify the project scope, schedule, and/or level of funding.

This notice is being mailed to all parties who submitted an application to this solicitation and is also posted on the Energy Commission's website at: www.energy.ca.gov/contracts/.
