**REVISED NOTICE OF PROPOSED AWARDS****Advancing Clean Energy from Biogas, Biomethane, and Natural Gas
PON-14-505****April 8, 2015**

On December 10, 2014, the California Energy Commission (Energy Commission) released a competitive solicitation to fund research, development and demonstration (RD&D) projects that address the barriers to increase market penetration of renewable energy, particularly biogas and biomethane (also known as renewable natural gas), natural gas fueled distributed generation, and combined heat and power systems. Up to \$5,500,000 in Natural Gas Research Program funding was available to fund agreements. As the Energy Commission reserves the right to increase or reduce the amount of funds available, the Energy Commission added \$476,779 to this solicitation for a total funding amount of \$5,976,779 for applications in:

- Group A: Development and Demonstration of Affordable Technologies and Strategies for Biogas Cleanup and Upgrading to Biomethane or Renewable Natural Gas for Clean Power Generation.
- Group B: Demonstration of Bottoming Cycle Solutions as Supplemental Power Generation for Highly Efficient Use of Natural Gas.
- Group C: Development and Demonstration of Micro-Scale and Other Novel Systems for Small-Scale Combined Cooling, Heating and Power Applications.

The Energy Commission received 14 proposals by the due date of February 6, 2015. Each proposal was screened, reviewed, evaluated and scored using the criteria in the solicitation. 13 proposals passed the Stage One Application Screening.

The attached "Revised Notice of Proposed Awards" identifies each applicant selected and recommended for funding by Energy Commission staff and includes the recommended funding amount and score. The total amount recommended is \$5,976,779.

Funding of proposed projects resulting from this solicitation is contingent upon the approval of these projects at a publicly noticed Energy Commission Business Meeting and execution of a grant agreement. If the Energy Commission is unable to timely negotiate and execute a funding agreement with an Applicant, the Energy Commission, at its sole discretion, reserves the right to cancel or otherwise modify the pending award, and award the funds to another applicant.

In addition, the Energy Commission reserves the right to: 1) add, remove, or shift funding between the different groups if there are insufficient passing proposals in one group and 2) negotiate with successful applicants to modify the project scope, schedule, and/or level of funding.

This notice is being mailed to all parties who submitted an application to this solicitation and is also posted on the Energy Commission's website at: www.energy.ca.gov/contracts/.

For information, please contact Doug Harvey at (916) 654-4747, or by e-mail at: douglas.harvey@energy.ca.gov.

Advancing Clean Energy from Biogas, Biomethane, and Natural Gas

Project Group A - Development and Demonstration of Affordable Technologies and Strategies for Biogas Cleanup and Upgrading to Biomethane or Renewable Natural Gas for Clean Power Generation

Revised Notice of Proposed Awards

April 8, 2015

Rank Number	Project Applicant	Title	Energy Commission Funds Requested	Energy Commission Funds Recommended	Match Funds	Score	Award Status
Proposed Awards							
1	Institute of Gas Technology dba Gas Technology Institute (GTI)	Advancing Novel Biogas Cleanup Systems for the Production of Renewable Natural Gas	\$1,000,000	\$1,000,000	\$214,650	83.5	Awardee
2	The Regents of the University of California, San Diego	Wood Chips on the Natural Gas Pipeline - RNG Production from Biomass	\$1,000,000	\$1,000,000	\$237,000	83.3	Awardee
3	Mosaic Materials, Inc.	Cost Reduction for Biogas Upgrading via a Low-Pressure Solid-State Amine Scrubber	\$1,000,000	\$1,000,000	\$200,000	82.7	Awardee
4	Las Gallinas Valley Sanitary District	Las Gallinas Valley Biogas Energy Recovery System (BERS) Project	\$999,070	\$999,070	\$1,350,580	81.6	Awardee
5	Biogas Energy Inc.	Investigation and Implementation of Improvements to Biogas Production Using Micronutrients, Operational Methodologies, and Biogas Processing Equipment to Enable Pipeline Injection of Biomethane	\$415,000	\$415,000	\$112,100	79.9	Awardee
Total Funding Recommended			\$4,414,070	\$4,414,070	\$2,114,330

Project Group A - Development and Demonstration of Affordable Technologies and Strategies for Biogas Cleanup and Upgrading to Biomethane or Renewable Natural Gas for Clean Power Generation

Revised Notice of Proposed Awards

April 8, 2015

Did Not Pass							
	Environmental Management Group International, Inc.	Compact High Rate Digester System for Manure Treatment and Biogas Generation at Small Dairy Farms in California	\$838,700	\$0	\$210,400		Did Not Pass
	The Regents of the University of California, Riverside	Efficient Biogas Utilization through Bi-reforming	\$842,486	\$0	\$169,970		Did Not Pass
	Burst Laboratories, Inc.	Biogas Productivity Enhancement by Cavitation Pretreatment	\$739,710	\$0	\$150,000		Did Not Pass
	Waste To Energy, LLC	San Benito County Landfill/Resources Recovery Park Gas Recovery Project	\$1,000,000	\$0	\$58,088,808		Did Not Pass
Total			\$3,420,896	\$0	\$58,619,178		
Disqualified							
	Carson US Inc.	Renewable Energy from Waste	\$1,000,000	\$0	\$500,000		Disqualified
Total			\$1,000,000	\$0	\$500,000		
Grand Total			\$8,834,966	\$4,414,070	\$61,233,508
