**NOTICE OF PROPOSED AWARDS****Alternative and Renewable Fuel and Vehicle Technology Program
Grant Solicitation PON-14-607
Zero Emission Vehicle Readiness****March 17, 2015**

On February 3, 2015, the California Energy Commission (Energy Commission) released a Grant Solicitation and Application Package entitled "Zero Emission Vehicle (ZEV) Readiness" under the Alternative and Renewable Fuel and Vehicle Technology Program (ARFVTP). This first-come, first-served grant solicitation was an offer to fund projects that support new and existing planning efforts for plug-in electric vehicles (PEV's) and fuel cell electric vehicles (FCEV's).

The attached table, "Notice of Proposed Awards", identifies each applicant selected and recommended for funding by Energy Commission staff and includes the amount of recommended funding and score. This notice is being mailed to all parties who submitted an application to this solicitation and is also posted on the Energy Commission's website at: <http://www.energy.ca.gov/contracts/index.html>.

A total of \$1,219,816 is available under PON-14-607, with passing applications in categories B and C funded first and remaining funds allocated to passing applications in category A. Allocations in category A were done on a "first come, first served" basis, with the last passing proposal receiving the remainder of the funds after all other passing proposals were fully funded.

Funding of proposed projects resulting from this solicitation is contingent upon the approval of these projects at a publicly noticed Energy Commission Business Meeting and execution of a grant agreement. If the Energy Commission is unable to timely negotiate and execute a funding agreement with an Applicant, the Energy Commission, at its sole discretion, reserves the right to cancel the pending award.

Questions should be directed to: Phil Dyer
