Addendum 2
RFQ-13-401
July 30, 2014

Bright Schools – Clean Energy Jobs Act – Technical Assistance Program
(also known as the Bright Schools Program)

This Addendum was completed because the following substantive changes were made to the Solicitation Manual for RFQ-13-401.

Section I, Introduction

1) Page 5, Purpose of the RFQ:

- Removed mention that “Firms will be scored higher for including a smaller number of Subcontractors on the team”. Page 33 removed the point score for the number of Subcontractors.
- Clarified that technical assistance cap is \$20,000 per LEA or CCD, not per work authorization. Page 11 further clarified that the \$20,000 work authorization budget cap is per LEA or CCD application.

Section II, Scope of Work

2) Pages 16 and 17, Tasks 2 and 3:

- Replaced “California registered Professional Engineer” with “U.S. registered Professional Engineer”
- Page 23, Minimum Qualifications clarified that the firm submitting an SOQ must employ one or more U.S. licensed mechanical or electrical PE.

Section III, Statement of Qualifications Format, Required Documents and Delivery

3) Page 24, Volume 2, Technical Response, Subsection C:

- Added requirement that firms “Provide a short description of the specific element(s) of work to be provided by the DVBE certified firm(s).”
- Page 33, added points to the scoring scale for specifying element(s) of work to be provided by the DVBE certified firm(s).

4) Page 25, Volume 2, Technical Response, Subsection G:

- Removed requirement for each Subcontractor to provide a full response to the Hypothetical Questions. Instead, clarified that the Prime Contractor may collaborate with Subcontractor team members to prepare the responses.

5) Page 27, Volume 3, Examples of Previous Work Products:

- Clarified the number of previous work product examples required by firms providing services to each task.
- Removed “ASHRAE Level 2” from Targeted Study and Study of Clean Onsite Self-Generation.

Section IV, Evaluation Process and Criteria

6) Page 33, Evaluation of Statement of Qualifications – Criteria:

- Created dedicated point category for Client References.

Both substantive and non-substantive changes to the Solicitation Manual are provided in strikeout/underline format in the attached:
