A. Minimum Qualifications

1. The Firm submitting a SOQ must be the prime contractor of the team from a single entity, not a group of representatives from different companies. The Energy Commission will contract with one prime contractor, and the prime contractor will subcontract with various companies who will provide technical expertise. The firm submitting a SOQ must be an entity that has one or more licensed mechanical or electrical professional engineers and can perform one or more Tasks ~~or~~ **of** Tasks 2 to Task 6 specified in this RFQ.

___ (Check yes)

2. The Firm submitting a SOQ must include at least three subcontractor companies on the team.

___ (Check yes)

3. The team must include one or more licensed mechanical and/or electrical professional engineers from each engineering firm. There is no minimum required.

___ (Check yes)

4. The team must include one or more licensed architects or LEED APs (Leadership in Energy & Environmental Design Accredited Professionals)

___ (Check yes)

5. There must be at least one company that can provide the necessary service for each task in the work statement. This requirement can be met if:

- The Firm submitting a SOQ can cover the task and/or
- A subcontractor can cover the tasks

(Include a table similar to the example below, showing which company is able to provide service for the various tasks. The table below shows an example of how the Firm will provide proof of meeting this minimum requirement.)
