

Contract Opportunity Notice

Motor Vehicle Attributes Survey and Analysis Hearing Room B

July 30, 2012

Laura Lawson
Transportation Energy Office
Fuels and Transportation

Laura.Lawson@energy.ca.gov / 916-651-1461

Funding and Contract Term

- \$290,000 in the FY 12-13 year and \$300,000 in the FY 13-14 year compared to approximately \$120,000 to support the last IEPR cycle
- Contract expected to span January 2013 to June 2015
- All funding is contingent upon workplan approval

Procurement Process

- RFP (or possibly RFO) expected to be released this fall, approximately September to October
- Feedback: Does an RFO present a barrier to bidding? How many prospective contractors are CMAS certified?
- Notice of Public Award (NOPA) approximately 3-4 weeks after proposals due
- Work to begin in early 2013

Scoring Criteria

Tentative Scoring Criteria:

- Staff experience with transportation forecasting
- Approach to timeline and deadlines
- Quality of vehicle attribute data sources
- Staff experience with and approach to validation and defense of forecasts
- Communication skills
- Experience with and approach to training
- Cost
