Citizens Oversight Board
c/o Kate Gordon, Chair
1516 Ninth Street, MS-29
Sacramento, CA 95814-5512

RE: California Community Colleges Proposition 39 Report

Dear Ms. Gordon:

The California Community Colleges Chancellor's Office is pleased to share with you the successes of the community college districts in implementing the Proposition 39 program. The first two years of funding have yielded 593 energy projects, with 135 projects completely finished, including project measurement, verification and close-out documentation. The completed Proposition 39 projects have resulted in one-time energy incentives from the Investor-Owned Utilities, ongoing energy and monetary savings at the system's 72 college districts, job creation in the community, and a better physical environment for California's community college students.

The 135 energy projects completed on 69 community college campuses in the first two years of Proposition 39 funding will result in an annual savings of 17.4 million kilowatt-hours of electricity and 230,000 gas therms - enough energy to power over 3,000 homes. The projects will also generate \$2.5 million in annual energy cost savings and \$3.9 million in one-time energy incentives. These savings can be redirected to educational programs and other support services to improve student outcomes.

The remaining 458 energy projects started in the first two years of Proposition 39 funding will result in further savings of 42.6 million kilowatt-hours of electricity and over 1,000,000 gas therms or enough energy to power 8,100 homes. The districts will achieve an estimated \$6.2 million in annual energy cost savings and \$9.2 million in energy incentives.

Additionally, the Proposition 39 energy projects will create jobs in communities throughout the state in both construction and construction related fields -- consultants, energy auditors, architects, engineers, and office staff. The 135 completed projects generated a total of 174 job years, and we estimate the remaining 458 projects will generate an additional 487 job years for a total of 661 jobs years.

To put these numbers into context, the 661 job years equates to each of the 72 community college districts bringing 9 one-year jobs to its community within the first two years of Proposition 39 funding. We are just beginning the third year of Proposition 39 projects and have every reason to believe they will be equally successful in generating jobs in local communities.

The Proposition 39 funding has been very beneficial to the California community colleges with an almost 5% reduction in system-wide energy usage. A total of 47 districts, or 65% of community college districts, have reduced their energy usage on campus with some districts reducing their usage by over 30 percent while others have made single digit energy reductions.

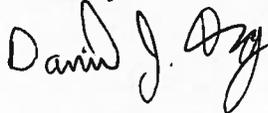

Workforce and Economic Development Division (WEDD)

The Proposition 39 funds have also provided training for community college students and instructors in energy efficiency related areas. In fiscal year 2013-14, WEDD has awarded almost \$5 million to the districts, with \$2 million allocated to equipment for the various programs and \$3 million allocated to program improvement. WEDD is currently focused on fiscal year 2014-15 program improvement efforts and the distribution of funds to districts.

The California Conservation Corps Energy Auditor training program has resulted in 347 Corps members passing courses in energy surveying and energy retrofit. This program will continue and will be expanded to include Advanced Energy Auditor training. Additionally, there are almost 7,400 students enrolled in energy efficiency courses throughout the state. The community college courses are aligned with the objectives of Proposition 39 and California's Green Building Code (Title 24), and we expect similar levels of district participation in the 2014-15 and 2015-16 fiscal cycles.

The funding provided by Proposition 39 has been pivotal in providing districts the opportunity to move forward with energy saving projects that they would not have had the chance to do, as well as allowing for the professional development, equipment, and curriculum necessary to operate this successful program. The results from the Proposition 39 California Clean Energy Act thus far for the community colleges have been very successful and we expect further success in the remaining years of the program.

Sincerely,

Daniel Troy
Vice Chancellor
College Finance & Facilities Planning Division

Citizens Oversight Board Proposition 39 Summary Report

California Community Colleges Chancellor's Office
Facilities Planning and Utilization
October 2015

Proposition 39 Overview

Purpose of the Report

The purpose of this document is to report to the Citizens Oversight Board on the progress of the California community colleges use of Proposition 39 funding for completed projects and education efforts per the requirements of SB 73 (de Leon, 2013).

The report includes information on completed energy projects, energy projects currently in progress, and education and training pertaining to Proposition 39 funding and is organized as follows:

- 1) The first two sections of the report provide information on energy projects funded by some combination of Proposition 39, local, and energy incentive funds. The first section provides a summary of the completed and ongoing energy projects in the system, and also provides a summary of key indicators for completed projects in each district.
- 2) The second section of the report provides a summary of energy usage data for each district.
- 3) The third section shows the current allocations by regions in the state for the first year of Proposition 39 funding to respond to workforce development needs for education, new equipment, and program improvements pertaining installing and maintaining energy efficient structures and equipment.
- 4) The fourth section of the report gives more detailed information regarding the Proposition projects complete in the first two years of funding (2013-14 and 2014-15). The information provided in this section is also reflected in the summary for state and the individual districts in the first section of the report.
- 5) The fifth section of the report provides a summary of the estimated data for the 458 on-going energy projects, including project costs, energy incentives, kilowatt-hours and therms saved, and jobs created.
- 6) The final section of the report is provides a summary of the districts' 2014 energy report and shows the energy usage for each district compared to the baseline year of 2013.

Proposition 39
Project Summary

California Community Colleges Chancellor's Office
Citizens Oversight Board Report
Proposition 39 Project Progress Summary

Proposition 39 Project Summary

This report includes both completed projects and those currently in progress. These two categories of projects are shown separately in the attached spreadsheets, and will be discussed separately in the narrative.

Summary of Closed –out and In-progress Projects

The California community colleges currently has almost 600 projects started in the first two years of Proposition 39 (2013-14 and 2014-15) either closed-out or in progress at a total cost of \$119.6 million. These projects will generate savings of 60 million kilowatt-hours and over 1 million gas therms resulting in \$8.7 million of energy cost savings. This is the equivalent of powering over 11,000 homes. Additionally, 533 one-year jobs will be created in community college communities.

Proposition 39 Total Projects Summary

- 593 Total projects
- \$119,605,985 Total project cost
- 60,081,712 kWh savings
- 6,576 kW savings
- 1,257,778 therm savings
- \$8,710,268 Energy cost savings
- 20.6 Trainee job years (FTEs)
- 661 Direct job years (FTEs)
- \$13,096,019 Incentives paid
- 11,216 Homes powered

Completed/Closed Out Projects

There are **135 completed projects** that were started in fiscal years 2013-14 and 2014-15 and closed-out on or before October 7, 2015. A summary of key data points for the 135 closed out projects is provided below, with more detail available on the attached spreadsheets. The energy projects spreadsheets section has a summary of the total project information for each district in the front, followed by a spreadsheet for each district with detailed project information.

Projects are not counted as completed and closed-out until they have been installed, verified by the investor owned utility (or consultant if they are located in Publicly Owned Utility territory), and the total project costs and job hours created by the project have been reported in the project close out forms.

As of October 7, 2015, the California community colleges have 135 completed and closed-out projects at a cost of \$31.3 million including Proposition 39 funds, utility incentives, and any district funding required to complete the project. The projects have generated savings of 17.4 million kilowatt-hours and almost 230,000 gas therms resulting in \$2.5 million in energy cost savings. This is the equivalent of powering

California Community Colleges Chancellor's Office
Citizens Oversight Board Report
Proposition 39 Project Progress Summary

over 3,000 homes. The projects also generated the equivalent of 174 one year jobs in construction and construction related fields and 7 training years in the communities served by the districts.

Proposition 39 Closed-out Projects

- 135 Closed out projects
- \$31,264,390 Total project costs
- 17,449,093 Verified kWh savings
- 2,048 Verified kW savings
- 229,699 Verified therm savings
- \$2,492,776 Annual energy cost savings
- 174 Direct job years (FTEs)
- 7.12 Trainee job years (FTEs)
- \$3,892,862 Verified incentives
- 3,072 Homes powered

Projects In-progress

An additional 458 projects are in progress at a total cost of \$88 million, including Proposition 39, utility incentive and district funding. These projects will result in savings of 42 million kilowatt-hours and 1 million gas therms resulting in \$6.2 million in energy cost savings. This is the equivalent of powering over 8,000 homes. Additionally, 500 one-year jobs will be created in community college communities.

Proposition 39 Projects In-progress (Estimated)

- 458 In-progress projects
- \$88,341,595 Current total project costs
- 42,632,619 Current kWh savings
- 4,528 Current kW savings
- 1,028,079 Current therm savings
- \$6,217,492 Current annual energy cost savings
- 486.87 Current direct job years (FTEs)
- 13.52 Current trainee job years (FTEs)
- \$9,203,157 Current incentives
- 8,144 Current homes powered

District Energy Usage Data Summary

California Community Colleges Chancellor's Office
Citizens Oversight Board Report
Energy Usage Data Summary

Energy Usage Data Summary

The following data is submitted and self-certified by the districts on a fiscal year basis. At a glimpse, system-wide energy usage has been reduced by 4.68 percent. A total of 47 districts have reduced their energy usage on campus while 19 districts have increased their usage. A total of 6 districts have not reported their baseline energy usage so we are unable to calculate the change at their district. Some districts have made some headway in reducing their usage by over 30 percent. However, there are districts that have increased their usage by the same amount.

Currently, districts are submitting their FY 2014-15 energy usage data. Therefore we currently do not have FY 2014-15 progress data to compare against the base year. For further detail and information, please see the attached spreadsheet showing the energy usage data summary and per district.

System-wide Energy Usage Data

- FY 2012-13 (Baseline Year) Average BTUs per GSF per week: 1,612
- FY 2013-14 Average BTUs per GSF per week: 1,537
- Percent reduction/gain of baseline year: -4.68%

Energy Usage per District

Allan Hancock Joint CCD

- FY 2012-13 (Baseline Year) Average BTUs per GSF per week: 1,673
- FY 2013-14 Average BTUs per GSF per week: 1,846
- Percent reduction/gain of baseline year: 10.34%

Antelope Valley CCD

- FY 2012-13 (Baseline Year) Average BTUs per GSF per week: 1,516
- FY 2013-14 Average BTUs per GSF per week: 1,328
- Percent reduction/gain of baseline year: -12.42%

Barstow CCD

- FY 2012-13 (Baseline Year) Average BTUs per GSF per week: 1,581
- FY 2013-14 Average BTUs per GSF per week: 1,486

Workforce and Economic Development

Summary

Workforce Development

2013-14 Fiscal Year

The Workforce and Economic Development Division (WEDD) received \$6 million in 2013-14 for the Proposition 39 Workforce Development program. All funding efforts are designed to improve the skills of college students to properly install and maintain energy efficient structures and equipment. WEDD distributed most of the funding (\$5.2 million) through a competitive process to districts serving as regional fiscal agents. These agents then distribute funds to colleges to improve instruction in their programs training students for careers in Energy Efficiency pathways. These funds were used to:

- Purchase new equipment,
- Create and improve curriculum, and
- Provide professional development for faculty and support for regional collaboration.

In addition, the California Conservation Corps received \$350,000 to support curriculum development and community college integration of their Energy Auditor program and \$150,000 was contracted to UC Davis Energy Efficiency Center for professional development of college instructors. An additional \$500,000 is being used to support curriculum design and approval as well as professional development for apprenticeship programs that train workers in the Electrical, Plumbing/Pipe Trades, HVAC and Sheetmetal areas.

Distribution of the funding from the 2013-14 fiscal cycle is ongoing, with the regional project directors for the grants completing their expenditure reports at this time (October/November 2015).

Regional **projected** expenditures to date:

North/Far North: (American River, Butte-Glenn CCD, Siskiyou, Cosumnes River, Sacramento City, Shasta, Sierra, Mendocino)

- | | |
|---|-----------|
| • Students Enrolled in Energy Efficiency Courses: | 3,231 |
| • Award: | \$680,598 |
| • Equipment: | \$296,546 |
| • Program Improvement: | \$384,052 |

Bay Area (Cabrillo, College of San Mateo, Diablo Valley, Foothill, Laney, San Jose City, Santa Rosa JC, Skyline)

- | | |
|---|-------------|
| • Students Enrolled in Energy Efficiency Courses: | 1290 |
| • Award: | \$1,091,554 |
| • Equipment: | \$81,356 |
| • Program Improvement: | \$1,010,198 |

Central/Mother Lode/Coast: (Allen Hancock, Antelope Valley, Bakersfield, College of the Canyons, Cerro Coso, College of Sequoias, Columbia, Cuesta, Fresno City, Merced, Modesto, Moorpark, Oxnard, Porterville, Reedley, San Joaquin Delta, Santa Barbara, Ventura, West Hills)

- Students Enrolled in Energy Efficiency Courses: 896
- Award: \$867,790
- Equipment: \$398,264
- Program Improvement: \$469,526

Los Angeles/Orange County: (Cerritos, Citrus, Cypress, East LA, El Camino, Glendale, Irvine Valley, LA Southwest, LA Trade Tech, LA Valley, Mt. San Antonio, Pasadena, Santiago Canyon, Rio Hondo, Santa Monica)

- Students Enrolled in Energy Efficiency Courses: 1100
- Award: \$1,491,712
- Equipment: \$838,342
- Program Improvement: \$653,370

San Diego/Imperial/Desert:

- Students Enrolled in Energy Efficiency Courses: 848
- Award: \$868,166
- Equipment: \$469,499
- Program Improvement: \$398,667

2014-15 Fiscal Year

Regional program improvement efforts continue in 2014-15 similar to 2013-14, focused again on improving community college Energy Efficiency instruction through curriculum improvement, faculty professional development and equipment purchases.
