## Notice of Proposed Substantive Changes to *Guidelines* for the California Clean Energy Jobs Act (Proposition 39)

The California Energy Commission will hold a Business Meeting on:

**June 18, 2014**  
Beginning at 10 a.m.  
CALIFORNIA ENERGY COMMISSION  
1516 Ninth Street  
First Floor, Hearing Room A  
Sacramento, California  
(Wheelchair Accessible)

Note: Audio from this meeting will be broadcast over the Internet with Remote Access available by Computer or Phone via WebEx™  
(Instructions below)

At the Business Meeting the Commission will consider adoption of proposed substantive changes to the *Guidelines* for the California Clean Energy Jobs Act (Proposition 39). The proposed changes to the *Guidelines* clarify the eligibility requirements applicable to LEAs that occupy leased publicly-owned facilities, leased privately-owned facilities, and their own private facilities, and are posted on the Energy Commission website at:

[www.energy.ca.gov/efficiency/proposition39/index.html](http://www.energy.ca.gov/efficiency/proposition39/index.html)

At the June 18, 2014 Business Meeting, Energy Commission staff will present an overview of the proposed changes to the *Guidelines*. The public can provide input on the proposed *Guidelines* changes prior to June 18 by submitting comments to the Energy

Commission at [docket@energy.ca.gov](mailto:docket@energy.ca.gov). On the subject line include the docket number "Docket 13-CCEJA-0: Comments on Prop 39". At the June 18, 2014 Business Meeting, the Commission will identify all proposed changes and provide an opportunity for public comment on the *Guidelines* prior to adoption.

The Energy Commission has been compiling additional requested *Guidelines* changes and is planning a comprehensive substantive changes cycle beginning in the Fall of 2014. Future substantive changes to the *Guidelines* will focus on conformity, technical and clean-up issues. The schedule for this future public process includes: 1) the release of draft changes to the *Guidelines*, 2) public workshop(s), and 3) a 15-day public notice of the proposed substantive changes to be considered at an Energy Commission Business Meeting near the end of the year.

## **Background**

Passed by voters in November 2012, Proposition 39 makes changes to corporate income taxes and provides up to \$550 million to improve the energy efficiency of California's aging schools and grow the state's significant clean energy economy. California public schools (K-12), county offices of education, community college districts, charter schools, and state special schools may receive funding for fiscal years starting with the 2013-14 fiscal year.

Under Senate Bill 73 (Committee on Budget and Fiscal Review, Stats. 2013, ch. 29.), the Legislature directed the Energy Commission to adopt the *Guidelines* at a publicly noticed meeting and to provide an opportunity for public comment. The adoption of the *Guidelines* is exempt from the administrative rulemaking process found in Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.
